

LAMBDA NU CHAPTER UPDATE

Sigma Chi Chapter at Loyola University Chicago

PLANS FOR THE SEMESTER

Will Hicks '23

Our goal this semester is to come back better than ever. We, along with the Loyola community, were strongly affected by Covid 19. Our goals are to have the best Derby Days as possible and raise money for The Huntsman Cancer Institute. As a chapter, We also would like to focus on celebrating our 10th year on Loyola's campus. We hope to involve our Alumni in this process and look forward to celebrating it next semester in April. We also are looking forward to the return of Rush and working with Loyola's Inter-Fraternity Council to continue to excel on Campus.

CONSUL UPDATE

Michael Esson '21

Hello brothers. It's good to be back. I am looking forward to beginning a new semester and appreciate Loyola for letting us operate in person again. We are looking forward to bringing back Chapter, On-Campus Recruitment events, and our Philanthropy in Derby Days. Our goal is to bring these events back as safely as possible, meet Loyola's Covid guidelines, and make sure that our Chapter operates in a way that mimics the success of previous years. I am most excited to introduce our newest brothers to Chapter, Derby Days, and to see each of them excel. I am thoroughly looking forward to this semester.

Brothers, it is a pleasure to be back. My goals for this semester are to try to run the chapter with the success that we had pre-covid for so many years. I am most excited for the return of Derby days after almost two years without it on Campus. Our goal is to keep everyone as safe as possible, have fun, and raise as much money to help those that need it. I am excited to see the same energy from the Sororities and Brothers that reminds me of my last Derby Days. I am also looking forward to raising money for the Huntsman Cancer Institute and hope that we can break our previous fundraising record. I am really looking forward to having things back in person and finally seeing all of my Brothers this semester.
